History for the war diary:

```
monicacarcary@ee272f715531:~/war-diary$ history
    1  wget -i urls.txt -r --no-parent -nd -w 2 --limit-rate=100k
    2  ls
    3  pandoc -o todayscommands.docx dhbox-work-today.md
    4  dhbox-work-today.md
    5  history
    6  pandoc -o todayscommands.docx war-diary
    7  pandoc -o todayscommands.docx /war-diary
    8  history
    9  nano-urls.txt
   10  nano urls.txt
   11  history
monicacarcary@ee272f715531:~/war-diary$ history.md
-bash: history.md: command not found
monicacarcary@ee272f715531:~/war-diary$
```

I accidentally exited out when I made the file for war diary

I was also trying to figure out how to save my history without just screenshotting it like this

These were my .md attempts and the pandoc attempts with no avail.
